

A Sample of Harwin

Here at Harwin, we provide customers with the best level of service possible. Whether it's supplying technical information or answering questions, we are on hand to fulfil your connector needs.

Key resources including test reports, datasheets and 3D CAD models can be found on the Harwin website. But sometimes you just need to get the look and feel of a connector, to see the size of the product and to bring your designs to life. This is when an evaluation sample is vital. Samples are ideal for evaluating purposes and helping you understand how the product can improve your design.

Harwin understands the power of samples and the role they play during product design. We maintain top customer service in the sample department. Fast turnaround on requests is serviced from a dedicated sample warehouse, providing you with your requested item by fast courier service. To keep delays down to a minimum, we keep high stock availability for all major product families.

We understand that selecting the right connector for a specific application can be challenging – some of our ranges have many variations available. We also understand how crucial it is for your choice to be the right product.

If you need further advice to find the perfect product, our Experts are ready to help you with in-depth knowledge. Our Inside Sales Engineer is happy to guide you through sampling options to assist with the right technical solution.

Once your connectors have been selected, Harwin commits to fulfilling samples orders within 48 hours of your request. From High-Reliability connectors to EMC Shielding, ready-made Cable Assemblies to New Product Introductions, we're ready to fulfil your sampling requirements.

Looking for a sample? Don't hesitate, ask an Expert to Connect with Confidence or read how to use the samples basket.
