Hairdryer

Application:

Consumer electronics.

Background:

Aiming for the high-end consumer electronics market, the latest addition in the customer's range was again a redesign on existing technologies - creating a more compact variation allowing for less electronics space.

The Challenge:

Multiple spring contacts required as contact points for different internal systems, all with minimal footprint and supplied ready for automated placement.

Harwin Solution:

Harwin's spring contacts provided the right combination of footprint, contact height and spring force, supplied in tape and reel packaging.
