28th February, 2006

Dear Customer,

As I am sure you are all aware, the transfer of all our leaded product to RoHS compliancy is imminent, the deadline being July 1st this year.

Harwin recognised the importance of being ready for RoHS at a very early stage and consequently, have been a fore-runner within the connector industry. Our programme has been so successful, that even at this early stage we have complete availability of 100% tin across all product types.

The enclosed list indicates new product releases conforming to RoHS legislation, and the leaded ranges that will immediately become obsolete.

The immediate obsolescence of our leaded ranges need not be of concern. All Harwin tin-plated components can be used within leaded soldering processes.

We hope you are encouraged by our commitment to the RoHS legislation, but as always, should you have any views or questions, please don't hesitate to contact me.

Yours faithfully,

A handwritten signature in black ink, appearing to read "Wendy Bourne".

Miss Wendy Jane Bourne, BEng
RoHS Compliance Project Manager
